STATE OF INDIANA

DEPARTMENT OF LOCAL GOVERNMENT FINANCE

INDIANA GOVERNMENT CENTER NORTH 100 NORTH SENATE AVENUE N1058(B) INDIANAPOLIS, IN 46204 PHONE (317) 232-3777 FAX (317) 232-8779

January 30, 2009

The Honorable Laurie Renier Kosciusko County Assessor 100 W. Center St, Room 209 Warsaw, IN 46580

Dear Ms. Renier:

RE: 2008 Annual Adjustment Ratio Study

The Department of Local Government Finance has reviewed the information and data you originally submitted for the Kosciusko County 2008 ratio study as well as the supplemental information. The Department hereby approves the ratio study results based on the study presented without verifying the actual data in order to allow the preparation and delivery of the real property list to the County Auditor pursuant to IC 6-1.1-5-14.

Further studies may be warranted in order to ensure that the annual adjustment process was followed. Additionally, we would encourage you to use all possible sales, which lend greater validity to the sales ratio study.

In conjunction with our Data Analysis section, please continue to ensure your sales disclosure file database is compliant. For assessment year 2009, your 2007 and 2008 sales disclosure data files must be compliant with the rules of the DLGF.

If you have any questions or concerns, please feel free to contact Barry Wood, the Assessment Division Director, at (317) 232-3762 or by e-mail at Bwood@dlgf.in.gov.

Sincerely

Jimothy J. Ruskenberg

Commissioner

cc: Barry Wood, Assessment Director

Kosciusko County Trending Narrative

Kosciusko County used the valid sales that occurred between January 1st, 2006 and December 31st, 2007 for the 2008 payable 2009 annual adjustment process called "trending". The sales were verified by phone calls, physically checking the properties and the Kosciusko County Multiple Listing Service. The Kosciusko County Board of Realtors and local appraisers have been a big help with information to values of properties.

Ratio studies were ran on all neighborhoods. We then analyzed the data and applied trending factors to the land and improvements, when indicated, for a market value for 2008. Appeal information was utilized where we had problem areas. The townships that had poor uniformity were then reassessed where needed. Some areas were redelineated and land base rates adjusted for the changes in market value.

Commercial and Industrial Properties

Industrial Improved and Vacant:

Due to the lack of sales, all of the improved industrials county wide were combined and analyzed in one Trending Study. The same was done to the Industrial Vacant; all of the vacant sales were analyzed in one Trending Study.

Commercial Vacant Sales:

These sales were done in 2 separate trending areas. One study was State Road 15 and US 30 around the Warsaw area, for Wayne and Plain Townships. The other study was for the rest of the sales in the county.

Commercial Improved Sales:

These sales were done in 8 separate trending areas.

The first area was for State Road 15 and US 30, around the Warsaw area, for Wayne and Plain Townships (these two townships both contain the city of Warsaw). The second area was for Center Street in Wayne Township. The third area was the downtown district for Wayne Township. The fourth area was for sales outside the city limits for Wayne and Plain Townships. The fifth area was for the rest of the sales for Warsaw, Wayne Township that were not in the downtown, major highways or Center Street. The sixth area was for all towns other than Warsaw for the other 16 townships. The seventh area was for State Road 13 on the south side of Syracuse, Turkey Creek Township. The eighth area was all sales left outside incorporated areas.

Apartments Sales:

Apartments were trended with two studies, one for 1-4 units and one for 5 and over units.

All Commercial Improved and Apartment sales are on one Ratio Sheet for the Study
